Berlin based Atomic Fruit combines dreamy, psychedelic rock with electronic beats and soundscapes. With members from Sweden, France, Pakistan and Italy, the group formed in 2021 after a serendipitous meeting at a SUUNS concert and their energetic livesthows quickly became a popular act in the Berlin underground scene.

Their debut vinyl *Play Dough* was released in the fall of 2023 to a sold out crowd at Schokoladen in Berlin and got featured in editorial playlists in Spotify, Apple Music and Tidal as well as airplay on Berlin radio station Flux FM.

The attention to sonic nuances and genre-bending character of the songs, along with beautifully structured melodies will definitely appeal to fans of "alt-j" and "Radiohead". However, the band's approach to songwriting itself is unique and escapes easy comparisons. -Loudness Blog

Atomic Fruit are currently planning a release tour for their second album, *Sketches of the Moon*, scheduled for February 2025, recorded at La Turbine studio in France and mixed by Riley Macintyre (Mumford and Sons, Adele, LCD Soundsystem). They just released the first single from the album, *Sure*, on September 20th.

Play Dough, 2023.
